3. SERVICE FOR NEW CUSTOMERS

- 3.1 The Company shall furnish service to applicants within its service area under the jurisdiction of the Idaho Public Utilities Commission in accordance with rates and Rules and Regulations approved by the Commission.
- 3.2 Applicants for water service may be required to sign a standard form of service application.
- 3.3 The Company shall not be obligated to provide service at a service location until any required deposit or guarantee of payment has been received by the Company in accordance with the "Rules and Regulations Governing Customer Relations of Gas, Electric, and Water Public Utilities under the Jurisdiction of the Idaho Public Utilities Commission" attached and referred to herein as Utility Customer Relations Rules (UCRR).
- 3.4 Special contracts may be required where large investments in special facilities are necessary to provide the requested service. The Company may require contribution toward such investment and establish such minimum charges as are deemed necessary. All such contracts are subject to the approval of the Commission.
- 3.5 The Company reserves the right to place limitations on the amount and character of water service it will supply and to refuse service to new Customers if, in its opinion:
 - (a) The Company is required to refuse or limit service by regulatory authorities having jurisdiction over the Company.
 - (b) The requested service installation is of larger size than is necessary to properly serve the premises.

- (c) The permanency of the building, structure, or institution requested to be served is such that the Company's investment in such service is jeopardized.
- (d) The depth of the Customer's service line is less than the minimum depth required for frost protection.
- (e) The Customer's proposed service, main or other appurtenance does not conform to good engineering design or meet the standard specifications of the Company.
- (f) The Customer refuses to agree to abide by the Rules and Regulations of the Company.

If the Company denies service to a potential Customer for any reason, it will immediately provide the applicant with a written explanation of its decision in accordance with UCRR.

4. DEPOSITS

4.1 Rules and Regulations regarding deposits to guarantee payment of bills can be found in Rules 101-109 UCRR.

5. RATES

5.1 Rates charged for water service and supply shall be those published in the Company's tariff and approved by the Idaho Public Utilities Commission.

6. BILLING AND PAYMENT

6.1 All Customers will be billed on a regular basis as identified on the applicable rate schedule.

gain access to the premises to read the meter, or in the event the meter fails to register, the Company may estimate the Customer's water consumption for the current billing period based on known consumption for a prior similar period or average of several periods. Subsequent readings will automatically adjust for differences between estimated and actual. Estimated bills shall carry appropriate notice to that effect.

- 6.3 All bills shall clearly indicate the balance due and shall be due and payable no less than 15 days after the date rendered. All bills not paid by due date shall be considered delinquent and service may be disconnected subject to the provisions of UCRR.
- 6.4 The minimum bill or customer charge shall apply when service is provided for less than one month.
- 6.5 Owners of premises with one or more condominiums, buildings, stores, apartments or any other divisions of like or similar character, all of which are served from one (1) service connection are responsible for the entire water charges. If the owner desires to cease being responsible for water bills for such places and desires that the occupant of each division shall be responsible for her or her respective bill, such transfer of responsibility will not be accepted or recognized by the Company until the plumbing arrangements of the building or premises are so changed by the owner or his or her agent as to permit the Company, to its satisfaction, to serve each division or occupant separately from the other occupants in the same building.
- 6.6 Accounts will be continued and water bills rendered regularly until the Company has been duly notified to discontinue service.

7. METERING (If Applicable)

- 7.1 Meters will be installed by the Company near the Customer's property line or at any other reasonable location on the Customer's premises that is mutually agreed upon.
- 7.2 The Company's representative shall be given access to the Customer's premises at all reasonable hours for the purpose of obtaining meter readings. In the event of recurring inaccessibility, the Company, at its option, may relocate its metering equipment at the Customer's expense.
- 7.3 The Company is responsible for the maintenance of its metering equipment. Meters are considered to be sufficiently accurate if tests indicate that meter accuracy is within ± 2 percent. When for any reason a meter fails to register within these limits of accuracy, the Customer's use of water will be estimated on the basis of available data and charges will be adjusted accordingly. Corrected bills will then be sent out to the customer and additional payment or refund arrangements made in accordance with UCRR.
- 7.4 The Company reserves the right to test and/or replace any meter. Upon deposit of a "Meter Testing Fee" by a Customer, the Company will test the Customer's meter. If the test indicates that the meter over-registers by more than 2 percent, it will be replaced with an accurate meter at no cost to the Customer and the "Meter Testing Fee" will be refunded and water bills will be adjusted in accordance with UCRR.
- 7.5 At the Company's discretion, unmetered Customers may be converted to metered service if such transition occurs in a planned, systematic manner without unreasonable discriminations and if the Company has an approved metered rate.

- 7.6 The Company shall have the right to set meters or other devices without notice to the Customer for the detection and prevention of fraud.
- 7.7 In any building where the meter is to be installed in the basement, the incoming water pipe must enter the basement at least sixteen (16) inches from the riser in order that a meter can be set in a horizontal position in the basement. All pipes to the different parts of the building or grounds must lead from the riser at least one (1) foot above the elbow.

8. CUSTOMER PLUMBING AND APPLIANCES

- 8.1 All plumbing, piping, fixtures and appliances on the Customer's side of the service connection shall be installed and maintained under the responsibility and at the expense of the Customer or owner of the premises.
- 8.2 The plumbing, piping, fixtures and appliances shall be maintained in conformity with all municipal, state and federal requirements. The nature and condition of this plumbing, piping and equipment shall be such as not to endanger life or property, interfere with service to other Customers or permit those with metered services to divert system water without meter registration.
- 8.3 A stop-and-waste valve must be installed on the Customer's plumbing in a place always accessible and so located as to permit shutting off the water for the entire premises with the least possible delay.
- 8.4 All persons having boilers, water tanks or other equipment supplied by direct pressure from the Company's mains should install a pressure relief valve, or other device to serve the same purpose, so as to prevent excess pressure from forcing hot water and/or steam back into the water meter and mains of

the Company. All damage to the Company's property resulting from failure to properly equip Customer plumbing with a relief valve shall be billed to the Customer.

- 8.5 The Company is not obligated to perform any service whatever in locating leaks or other trouble with the customer's piping.
- 8.6 When the premises served by the Company is also served in any manner from another water supply of any kind, an approved backflow prevention device shall be installed at the service connection. Water service for either stand-by or other purposes will not be furnished until piping and connections are inspected and approved by a representative of the Company.
- 8.7 Property owners will not be allowed to connect the water service of different properties together.
- 8.8 All of the Customer's service pipes and fixtures must be kept in repair and protected from freezing at his or her expense. When there are leaking or defective pipes or fixtures, the water may be turned off at the option of the Company until the proper repairs are made.

9. INSTALLATION OF SERVICE CONNECTIONS

- 9.1 The service connection is the property of the Company and as such, the Company is responsible for its installation and maintenance. It consists of piping, curbstop and valve or meter box and a meter, if the system is metered. The service connection transmits water from the Company's water main to a valve or meter box generally located near the Customer's property line. All piping, valves or appliances beyond this point are the property and responsibility of the Customer.
